1.) with colouring matter 2.) with benzoic acid preservative 3.) with caffeine

## “Berlin Wine”

---

### *Berlin wine rarities*

Wine has been produced before the gates of Berlin **for over 800 years.**

This occurred above all under the protection of the Margrave of Brandenburg's rulers and bishops. From the 15th Century, wine production received a significant boost from the House of Hohenzollern's prince-electors originating from Franconia. In this context, many papal elector vineyards emerged, and from that point on, *märkisch* wine became firmly established on table of every papal elector.

Our wines are among the northern-most quality wines in Germany, growing on pure sandy soils on the **Wachtelberg**, and are produced and bottled in own cellars of the wine estate of Dr. Lindicke in **Werder near Berlin.**

These wines excel in their fine, pleasant acidity, as well as their fresh, fruity aromas.

*We receive only a few bottles per year of these rarities. So don't be upset if a certain type of wine is sold out.*

### *White Wines from Wachtelberg*

**0,2 l    0,75 l**

- |      |                |  |        |         |
